

"As you know, the NWSCA was unable to acquire the overnight parking permits for the 2008 season. Carey Mahoney and Jim Smith have been working diligently during the past six months to get us permits for the 2009 season. Unfortunately, our first application was denied. This means we were unable to get the overnight camping permit in place for the June race.

However, much has transpired in the past 30 days. At this time, it is looking very promising for the rest of our 2009 season. Jim is now working directly with a city manager for Longview that has written legislation specific for the NWSCA. There is a city council meeting on June 11 to discuss this legislation. If passed, we will have a waiting period of 40 days to ensure there is no appeal of the legislation. The city manager is confident that the legislation will pass, which means we will be able to have our first race July 25 & 26.

Please watch our website for updates.

In the meantime, we encourage you to take advantage of the other tracks around us, especially the 4th of July event which will be held at Riddle Raceway. Check out the OORA website at <http://www.oorasandracing.org/OORA%20july4%202009%20race%20sched.html> for more information."
